

Cottage Connection

Spring 2021

"I have been using Harris Plumbing for a number of years at our Muskoka cottage. The team provides excellent service. They do what they said they would do, when they said they would do it, for the price they said. It's nice to have a team you can count on."
Michael B.

"Summertime ♪...and the livin' is easy ♪...." With Our Professional Services & Products

Inside....

- * Bathrooms: refresh with toilet, sink or faucet replacements
- * Kitchens: new faucet, sink, dishwasher install

- * Septic Tank care / Pumps / Partial or complete re-piping

Seasonal Maintenance....

Spring Opening, Fall closing, inspections, hot water tank flushing, filter changes, UV's & water quality testing.

YES! we do all this!

**JOIN THE
MOVEMENT..
DRINK YOUR
OWN WATER!**

If you're like most people, you're hearing a lot about the war on plastic bags and single use plastic water bottles.

What can you do at the cottage???

- ◆ Install a quality Ultraviolet filtration system to kill bacteria. You CAN safely drink your tap water!
- ◆ We can remove sediment, sulphur, iron, manganese, taste & odour from your water.
- ◆ We test your water and custom-design a water filtration solution for your cottage.

Summer Cottage Plumbing Tips

Even though your cottage was closed properly, cracks can still occur. Winter freeze & thaw, unheated crawlspaces, open airways & critters can cause movement in plastic pipes. If we are opening your cottage we can repair them so you don't have to.

- ◆ Use eco-friendly soaps, shampoo + detergent. Phosphorus is extremely damaging to lakes & rivers as it promotes algae.
- ◆ Be mindful of what goes into your septic tank + it's capacity. Ask us about **BIO-CLEAN** ~ amazing for drains & tank efficiency.
- ◆ Don't park vehicles on top of your septic bed or tank.
- ◆ Conserve water! Replace old water-wasting toilets. Go dual-flush or low-flow. We can take care of that for you. Water-saver showerheads can save 25%—60%.
- ◆ Install low-flow aerators on all your faucets & showerheads.
- ◆ Consider a UV system. Safe water & no plastic bottles!

*Our promise to you...
 We will always treat your
 cottage + your property with
 respect and dignity.
 Thank You for your business.*
